County Chamber of Commerce Held Monthly Meeting

At the County meeting of the Chamber of Commerce last Friday Joshua Tree had eleven in attendance, with Mr. Harvard, of Los Angeles as a guest of Mr. Bunker. Our party left Joshua Tree at four o'clock and arrived a short time before the banquet hour. The banquet was held at the Fontana Inn, in Fontana and about fifty were in attendance.

Mr. Drake, president of the Chambers acted as toastmaster. Several important issues were discussed. The secretary of the Ontario Chamber explained their problem of the Euclid road, which has been delayed in extension because of government prmises, which were made prior to the war. The matter of flood control was brought up by Mr. Wood, chairman of our Joshua Tree Civic and Political committee. The supervisors promised to have the flood control condition taken care of within the next ten days.

One of the speakers took up the matter of the various propositions which are to be voted upon next Tuesday, recommending certain Yeses and Noes, endorsed by the County Chamber. This discussion

Ambulance Drive Ends With Nice Sum

The Ambulance drive, which has been running for the past three weeks or more closed this week. The Drive has been under the supervision of Dr. Sinclair, who announces that approximately five hundred and twenty-five dollars was raised in Joshua Tree and community .. The Woman's Club and the Chamber of Commerce each contributed twenty-five dollars toward the fund.

The business people and citizens all gave generously. Dr. Sinclair wishes to thank those who helped to make this important Drive a success.

Francis K. Kenney and J. Dal Corso, of Los Angeles, spent several days in Joshua Tree the first of the week. These gentlemen lately made a purchase of two sections of land northeast of town through the Bunker Land Co. and they will soon begin preliminary work on same and get it ready to offer to the buying public in acre lots.

Magician Show Friday and Saturday Nights

The Magician show which was put on both Friday and Saturday night at the Community Hall for the benefit of raising funds toward the completion of that building, was well attended, especially Saturday night.

Prof. Smith gave the audience a good show. While he stated that not for the world would he "fool" the good people who attended his show, he did fool them so cleverly that many good laughs were indulged in.

Many fascinating tricks were played and the hynotism act was good. He did not play embarrassing tricks on those put to sleep, but merely demonstrated his ability to show what concentration, plus cooperation would do.

A nice sum was netted for the Community Hall an deveryone was happy.

The Steele's Move To Hollywood

Mr. and Mrs. L. D. Steele, who have been living in Joshua Tree for the past several months left for Hollywood Wednesday, where they will make their future home.

Mrs. Dorothy Steele was engaged in the real estate business while here and made some transactions which gave Joshua Tree some good citizens. They have a cabin home in the Yucca Valley district which they will keep for future visits to old friends in Joshua Tree.

Mrs. Steele contemplates entering the real estate field in Hollywood. They both made many friends while living here and Joshua Tree citizens hope they will some day return here to live.

Mr. and Mrs. A. Niefman, of Los Angeles, have been in Joshua Tree during the past two weeks, sojourning. They are the owners of several lots here.

Tootle Ranch Home One of the Wonders of the Joshua Tree Area

There are enough human interest stories in and around Joshua Tree to keep any newspaper person busy. One of the editors of the Joshua Journal together with Mrs. Mable Forsythe, of Los Angeles, visited Mr. and Mrs. Robert Tootle, last Sunday and looked and listened in amazement at the accomplishments of this fine couple.

Mr. and Mrs. Tootle live four miles north on Sun Valley road, near Joshua Tree. They have 160 acres of land which they homesteaded 17 years ago. Their immense home is built of rock, which was hauled and built by Mr. and Mrs. Tootle. The house covers an area of 45x66 ft. The rock fireplace in the den is built with rocks of various sizes and kinds. The fireplace is a beauty in design and its structure might well be envied by those of skilled architects. They have their own electric plant, high water system, the tank of which holds 9200 gallons of water, a large swimming pool and the patio comprises 1000 square feet. The house has two bedrooms, 2 showers and linen closets, huge refrigerator built in the walls, electrically equipped, built in electric heaters in each room including shower rooms, a lovely kitchen and a living room and den.

The well, which we neglected to note depth was hand dug. There is a wind mill built of rock, outside room containing all electric and shop appliances, a large garage and work shop, and on the back porch is installed in the wall a stove with barbecue grill attached.

The person behind the scenes of any achievement is more important than the thing accomplished. This is the opinion of the writer.

Mr. and Mrs. Tootle are living in an isolated spot, which they homesteaded 17 years ago. They both look young for their years, having grandchildren. Mrs. Tootle bubbles with good cheer and they have both learned the art of contentment. They came to the desert in 1929. They completed their home in 1943. They have realized a vision in building for themselves, something for which they have dreamed during those 17 years. They have a nice car and come and go at will, when and where

Modern Pioneers Are Founding New Frontiers

By EDWIN P. WALTERS

It is becoming increasingly apparent that people are on the move and there seems to be two directional trends to the migration. One is toward the West and the other is away from the congested urban centers.

Years of regimented living in crowded cities — of stifling restrictions amid the din of snarling traffic have influenced many to seek the outlying areas for relief. The enlightened have realized the cost in physical health and mental serenity they have paid for the privilege of living in over-crowded cities — to say nothing of that sense of frustration and feeling of futility one gets from following a treadmill existence.

Modern pioneers are finding a new frontier in rural areas where they have room to breathe freely and grow, and where they can enjoy healthier living in the more wholesome environment of smaller communities. For those who have seen the light, life has taken on a new and more hopeful meaning.

This new frontier will consist of millions of rural home sites—from lot size to plots of one to several acres — where fruit and vegetables may be grown—a cow and poultry kept to help ease the economic strain imposed by that ever present bugaboo known as the high cost of living.

Many others are finding that quite profitable yields may be realized by larger scaled operations along these lines for the surrounding markets.

Children will be healthier in this new environment and the family circle will attain its rightful place of paramount importance in our daily lives.

The town of Joshua Tree so well fulfills the requirements of these modern pioneers that the pheno-

Picnic to be Held At Mentalphysics New City

On Monday, Nov. 11, a picnic will be held at the new city of Mentalphysics. The following card has been handed into the Journal pertaining to the event which explains in detail their plans:

On Monday, November 11th (Armistice Day), the Mentalphysics picnic will be held at the new City in the Yucca Valley, which is reached by following Highway 88 to 29 Palms Junction (below Banning), and then turning left and following the road up through the Morongo Valley and the Yucca Valley. (See map obtainable at most service stations.)

It is desired that as many students go as can do so. Those with transportation and room for other student passengers are asked to kindly communicate with us immediately, using a post card, to the City Development Committee. The Institute of Mentalphysics, 213 S. Hobart Blvd., Los Angeles 4, Calif., advising how many they can take.

Those without transportation should send a post card in immediately if they wish to go. Give name, address and student number. We will then try and arrange a ride for you. Don't wait until the last minute and expect a ride. Drop us a post card now; not a letter or long communication. Be brief!

Everyone should bring their own lunch. Use rest rooms at Banning or other points en route, as our present facilities at the new City are very limited now.

Our Poet Laureate

Mr. Fred B. Harvard, one of our lot-owners and a chronic Joshua Tree booster, dropped in on us this weekend for a gabfest.

He confessed he has written som verse during his summer vacation in Long Beach and has made available to us a number of his compositions for publication in the Journal during this Fall and Winter. He writes over the pen-name Trama Regus Patoff.

His first three efforts, "Desert Bed," "Grand Uproar" and "Two Loves" will appear in the 1946 edition of "Pageant of Poetry" an anthology of American verse published by the Hillcrest Publishing Co. in Beverly Hills. Another "valley versifier" makes his bow.

Another S. O. S. For Workers

We wish to call to your attention the urgent need for workers with tools to appear at the Community Hall Saturday. There are to be some finishing touches, which should be taken care of immediately before cold weather overtakes us.

Mr. Cook is quite anxious that the job be finished. Workers are urgently needed. Please be there.

Mrs. Louise Lohenbauer was the recipient of many lovely gifts for her expectant baby, Friday.

A shower was held at the home of Mrs. Tom Rogers, Friday afternoon. The invitations were unique and were made by Gwen Rogers, daughter-in-law of the hostess.

Among the other gifts the Woman's Auxiliary of the American Legion presented a Baby Bunting, which was a beauty.

Guessing games were played and refreshments were served. Aside from the members of the Auxiliary many other guests were present.

Political Parade

By Clem Whitaker

Hollywood's czars of the multi-billion-dollar moving picture industry and the fabulously fat tycoons of the California horse racing combine have been stirred to the depths of their pocketbooks—and consequently the air will be filled with sound and fury during the remaining days before election, as the heavy-handed gentry with heavy dough do their financial utmost to smash the threat of a new rival in the amusement field.

The big money attack—fronted, in some instances, by unsuspecting women's organizations, religious groups and humane societies—will be directed against Proposition 2, which would legalize greyhound racing (on the same basis as horse racing), but with one-third of the profits ear-marked for veterans' welfare and rehabilitation.

Politically, it will be a modern version of the battle between David and Goliath, with moderately-financed dog fanciers and unfinanced veterans pitting their strength against the two richest amusement trusts in the State, but don't be surprised if the V.F.W. and D.A.V. lads, who are both numerous and determined, win out on election day.

"The unpardonable sin committed by the dog racing enthusiasts, in the eyes of their competitors," declares M. C. Hermann, State Adjutant of the Veterans of Foreign Wars, "is that they volunteered to give a third of their profits to aid wounded veterans and other distressed service men in re-establishing themselves in civilian life. The horse tracks, on the other hand, have coldly turned down veterans' appeals for even the 'breakage' at their betting emporiums.

"California veterans didn't let the enemy fool them overseas—and I don't think they will be fooled by the smokescreen of silly charges emanating from their political enemies in this campaign. There has never been a scandal connected with State-supervised dog racing in any of the States where the races are held — and that's more than can be said for horse racing. It's a good, clean sport, and the people should know that the opposition to our amendment comes strictly from greedy interests which don't want competition at the box office."

MORE PEOPLE ARE TALKING MORE

This is a sign of the times. There is a big new population in California - more things going on than ever before - more things for more people to talk about - more reasons for more people to use the telephone longer and more often. For example, business men, in need of supplies, must make many calls to their distributors today, where one call would have been sufficient in normal times.

The telephone industry has a big job ahead to satisfy the tremendous demand for more and better service, and it is working day and night to overcome the obstacles which are preventing speedy improvement.

"Entered as second-class matter August 12, 1946, at the Post Office at Joshua Tree, California, under the Act of March 3, 1879."

Let us not fail the veterans of this war, as we failed, to the Nation's shame, the veterans of World War I. By voting for Proposition 2, let's buy this dream for the men whose sacrifice has bought for every bright dream we have or shall ever have in this life!

* * * * *

A news item heading in the Monday metropolitan press, read, "Sawdust Used In Shoe Soles." What about some of the cereals we eat?

* * * * *

When the government gets ready to stop any more homesteading or speculating in land in the Joshua Tree National Monument and prepares to turn it into a sight-seeing place for our thousands of tourists, Joshua Tree is going to be a mighty busy place in the entertaining of said tourists.

* * * * *

With a registration of 4,383,963 voters in the state at this time, at least forty-five per cent of that number will probably vote. There are a large number of people in this state who are too indifferent to go to the polls and vote, even though they have been reigstered. They do that in every election, and it is too bad there is no way to disfranchise them. Are you going to be one of them next Tuesday?

* * * * *

If conditions today were as bad as too many people think, they'd be a lot worse than they are.

* * * * *

There are three kind of people in the world, the wills, the won'ts and the can'ts. The first accomplish everything, the second oppose everything, the third fail in everything.

* * * *

The Joshua Journal has just been admitted to the U. S. mails as second class matter, putting us on an equality with any other newspaper published in the United States. Only one more hurdle to jump and we will be right up, with the big wigs.

* * * *

Those fellows who are furnishing the bank rol lthat keeps the desert views putting out a hundred or two copies each week, probably figure that the more money they throw away on that venture the less income tax they will be called on to pay when Uncle Sam calls pay day.

* * * *

If you fail to vote next Tuesday, you will have no right to congregate on the street corners after the election is over and start cussing out the government for the way it is running things. Vote or keep still.

* * * *

To show that it rains on the just as well as the unjust, this section of God's country received a smattering of rainfall Sunday night and early Monday morning.

* * * *

The horse racing bunch as well as several organizations and the moving picture capitalists are pooling their forces in an attempt to defeat the Veterans of Foreign Wars Greyhound Proposition No. 2 at the coming election. Well, the way those Greyhounds can cover the ground, the old hay burners belonging to Crosby and Mills will have to speed up to beat the hounds under the wire.

* * * *

The republicans of the state and nation are now claiming they will sweep the country in the coming election. It now comes back to us that in our seventy odd years we have heard that cry several times before.

DESERT BED

The brooding-mother stars bend low
O'er the calm cradle of the peaks and plains.
These luminous lanterns, moving slow,
Gleam between dark, encircling mountain chains.

Prostrate upon the desert's breast,
Sensing the healing of her ageless peace
Above, around me, I'm at rest,
Devoutly thankful for this sweet surcease.

From city's deafening din . . . and there's
No space, no distance, lying between us now.
(My eyes were holden and my ears
Often in town were dulled.) Out here, somehow,

The heavens declare Thy glory, God.
Gone are the earth-cares that make me berserk.
My comfort is Thy staff and rod.
The firmament reveals Thy handiwork.

FLORIST VISITS JOURNAL OFFICE

Mrs. Holloway of the Morongo Valley Gardens Florist, was a pleasant caller at the Journal headquarters last Saturday evening. Mrs. Holloway is one woman who really understands the cultivation of flowers and shrubs. The people of this valley need go no farther than Morongo Valley to get what they may want in flowers, and they should give her their aid and support in trying to build up such a worthy enterprise in our midst. We hope Mrs. Holloway can make a go of the floral business at Morongo and that she will conclude to stay on the job.

VISITORS IN MORONGO

Mr. and Mrs. Jim Woods of Morongo Valley recently had as their guests, Mrs. Wood's mother, Mrs. Margaret Boehmer of Bremerton, Wash., and Mr. and Mrs. Wm. Loew and son, Billy, of Tacoma, Wash., for a 10-day visit. Mrs. Loew is a sister of Mrs. Woods.

They spent several days in Los Angeles and vicinity before coming to Morongo Valley and were very favorably impressed with California, particularly with our abundant desert sunshine.

Among desert places of interest they visited were: Palm Springs, Salton Sea, Imperial Valley, Joshua Tree, 29 Palms and Indian Cove. They hope to return again next year.

THE WEBSTER FAMILY PAY US A VISIT

Mr. and Mrs. W. A. Webster and children Bill, Nancy and Bud, were Joshua Tree visitors over Sunday. Mrs. Webster is a teacher in the Glendale schools while Mr. Webster has charge of the Arrowhead-Pomona branch of the Puritas drinking water distribution of that section. They own 160 acres of land four miles east of Joshua Tree and spent the day looking it over. While here they ordered the Journal to visit them during the next year at their present home in Tujunga Canyon.

THIS . . . and THAT

By Beth Barrett

That Joshua Tree is on her toes was evidenced by their attendance at the County Chamber of Commerce meeting which was held Friday night of last week at the Chamber of Commerce meeting, at Fontana. There were twelve in attendance, the largest delegation in the county. Even Fontana was not so well represented.

The members of our group who attended were a congenial group who enjoyed the outing and came back stimulated to further effort to make a bigger and more progressive Joshua Tree.

Sometimes we delay that word of appreciation of another's thoughtfulness until it is too late. You will all remember the nice letter Mrs. Lyday wrote the Journal about a month ago. It is nice, across the miles to greet those whom we have not met. I had intended to write Mrs. Lyday a letter expressing my desire of at some time knowing her, but we were notified of her passing away with this letter unwritten. When I neglect doing something nice which would lend cheer to another, I am reminded of my neglect, and I am ashamed.

Marty and Mable came over again Saturday and really cheered up the Barretts. We had a personal worry which they helped us to forget with their smiles, their good cheer and Mable's and Marty's good food and cooking. They brought chicken stewed ready for dumplings and real country sausage. Marty baked the hot cakes for breakfast and we all really had fun. Since their being here Marty had killed a deer which he has in a locker in L. A.

Mr. and Mrs. Thomas J. Burns and niece Marion Kelley and Mr. and Mrs. Hazen, and daughter Reser, have been in the city several days and have been stopping at the Hobby House. Mr. Hazen is connected with the Southern California Tel. Co.

Trailer Camp News

E. A. Baldwin, one of the proprietors of the Trailer Camp has recently planted two hundred trees, among which are Oleanders, at the Camp grounds. Our Trailer Camp here is drawing many outside people. Both Mr. Baldwin and Mr. Wilson have taken not only an interest in making the Camp livable, but have added a home like atmosphere too for the guests.

Mr. and Mrs. Copp left for Los Angeles Saturday, where they visited their children.

Gerald Baird and wife and brother-in-law and wife, of Santa Ana were guests at the Trailer Camp over Sunday.

Mr. and Mrs. Jack Barnes, Mrs. Thelma and Sandy Harkens, of Los Angeles were in Joshua Tree last Sunday visiting Mr. and Mrs. Sam Frye, who moved here three weeks ago from Los Angeles. Mr. Frye is working for the Smith Construction Company.

Flying News From 'K' Field

By Staff Correspondent

Interest was centered on the New Piper Cub Super Cruiser last week which was stopped at "K" for a few days. It comes equipped with an electric starter, lights, roomy seats and pleasing upholstery. The Cruiser will cover 100 miles on 6 gallons of gas in one hour and carry three people. It has the same safe flying characteristics that are incorporated in the trainer.

Mr. Below and Mrs. Below's sister from Kentucky, enjoyed a short flight in the Super Cruiser over Joshua Tree.

Buster Jones, from San Diego, spent a few days at "K" flying his sailplane. He was able to get both ridge and thermal soaring.

M. E. (Doc) Powell and Chuck Muessel flew out from Grand Central to do a little soaring last week. Each took an hours instruction from Ray Parker.

Our old friends from San Bernardino, Leo Miller and George Van Auken, flew out in a Stearman and a Bt Vultee to say hello last Saturday.

Mr. Bill Bean and wife flew out in their Bt to spend a few days in the desert.

Last Sunday, Bill Nattie, manager of the Needles airport, led a breakfast party flight to "K" field. They enjoyed cooking their breakfast over an open fire and watching the gliders soar. The party started back early because of an approaching storm.

The Desert Flight Club is proud to welcome a new member, Louie Nash from Twentynine Palms. We know that Louie will find flying both useful and interesting in the future. Sid Lippon, Dick Lambert, Mac McDowell did their share o fflying last week. Jack Cones passed his approval on the new Super Cruiser afted flying it.

Church Corner

Sunday, Oct. 26, Dr. Williams' sermon was taken from the Book of Acts, 4th chapter, 4th verse. The keynote of the sermon was "Salvation."

Mrs. Grace Crane and Mrs. H. K. Lee rendered a duet "Whispering Hope", accompanied by Mrs. R. R. Rundall.

The meeting of the Board of Trustees and Board of Stewards of the Joshua Tree Community Church is to be held on Monday, Nov. 4th, 1946, at 7:30 p.m. at the home of Mr. and Mrs. Ted Crane on Grand View Circle. Everyone interested in the church is welcome at this meeting.

Mr. and Mrs. J. E. Bauer of of Cabazon visited Mr. and Mrs. Wm. Kirch on Sunday.

Mrs. Williams of the Gift Box presented the church with collection baskets.

The Record . . . .
Not born out of the figment of the imagination nor of the promises of ambitious politicians but based on facts.
A man CAN and WILL do what everyone else knows that he has already done well.
A man in public office is distinguished by the amount of service he renders to the people. His record is the indicator of the way his office functions.
Sheriff E. L. Shay's record is like a badge, a golden badge of honor of distinguished law enforcement in this County.
Law enforcement agencies in this and other states have lauded the way Sheriff Shay and his trained deputies have dealt with criminals and crime.
The record of the Sheriff's Office is well known to all law abiding citizens and also to the enemies of law and order.
Let San Bernardino County keep in the hands of a proven law enforcement Officer the workings of the Sheriff's Office.

Opportunity Calls

(Continued from page 1)

menal growth of this area in the past two years was to be expected.

While the population of the town itself has already reached a figure in excess of 500, this constitutes less than one third of those in the immediate area. There are some eighteen hundred people living within a six mile radius of the Joshua Tree shopping center and this potential buying power provides unusually attractive opportunities for profitable business in practically every branch of merchandising and marketing. There are many excellent opportunities open for those with vision and the courage to get started.

We do not claim to rate with Nostradamus as a prognosticator but we do feel justified in predicting that Joshua Tree will one day be recognized as the commercial and industrial center of its rapidly expanding zone of influence.

It has been estimated that as soon as the road system is completed and camping sites established within the Joshua Tree National Monument, this park of almost a million acres will lure upwards of a thousand cars a day and these thousands of tourists will find it most convenient to patronize our local merchants during their visits to this scenic wonderland.

A favored location in respect to markets—a healthful elevation of 3000 feet—easily accessible over good highways—mild, dry climate through the year—good soil and topography and pure water are all prime factors readily appreciated by those who have their eyes on the future.

County C. of C. Meeting

(Continued from page 1)

was lengthy and took up most of the time of the evening.

A member of the public relations group of the Kaiser steel mills invited the County Chamber to meet with them at some near date, at which time a free dinner would be served and the members treated to a sight seeing trip through the mills.

On the road home an invitation was discussed to invite the Chambers to meet in Joshua Tree. Ways and means of entertaining them were discussed, which is not for publication.

Those who attended from Joshua Tree were: Chester Bunker and friend, Mr. Harvard, Mr. and Mrs. Wood, Mr. and Mrs. Milo Crane, Mr. and Mrs. Krumcke, Mr. Williams, Mr. Biggs, Mr. Bartlett and Mrs. Barrett.

Tootle Ranch Home One of Wonders

they please. We liked their happy outlook on life, and left with the feeling of having spent a delightful half hour with a couple who had lived and loved each moment of their existence.

They have just returned from a trip from Portland, where they attended the DAV convention, Mr. Tootle having been a World War veteran. While on their vacation they visited Canada and other points.

They invited us to come again. We will, thank you.

MARTY AND MABEL COME LADEN

Marty Blair, a cousin of Mrs. W. K. Barrett and Mabel Forsythe, a friend of the family, drove out Saturday night from Los Angeles and spent the night and Sunday with the editors.

As usual they came laden with a lot of good things to eat, such as chicken, mince pies, sausage and various other items of food. They are getting to like Joshua Tree and we herewith extend them a cordial invitation to bring their dinner and come over any time. They returned home Sunday afternoon, just ahead of the rain.
